VINTAGE SOFT-HAND

This popular technique produces prints with a washed-down appearance and vintage quality, especially when combined with distressed artwork. To achieve the lighter hand, a soft-based additive is incorporated to the ink mixture and the design is printed without the use of an underlay. Exact color matching cannot be achieved with this process. Supply your own artwork or utilize one of our pre-designed name-drop graphics that can be easily customized with a company name or logo. Additional name-drop designs are available upon request.
