

LASER ETCH (LE)

Utilizing laser technology, we can etch a design on a variety of fabrics. The end result differs by fabric, but is always a precise, clean mark that offers a unique, upscale look. Our laser can achieve smaller detailing than other laser machines. Take advantage of unique placements, such as across zippers and seams or down sleeves to create a design that looks like it's part of the fabric. Laser etching is recommended for medium-shade garments.
