

# WHAT IS GOOD EMBROIDERY

Because we digitize our logos and embroider our products under the same roof, you can be assured your logos will be digitized most efficiently to run on our embroidery machines. That means you do not have to worry about logos being “padded” with extra stitches. Thanks to our decades of experience, you can also avoid poor stitch coverage that saves machine run time but harms the look of your logo.

12,721 STITCHES:

Vantage optimizes stitch usage for best appearance and production efficiency.

8,639 STITCHES:

Poor coverage

16,912 STITCHES:

Padded logo with unnecessary stitches that cost you more.

EMBROIDERY - 27 YEARS RUNNING

DECORATED APPAREL - 13 TIME WINNER
